

June 17, 2009 Minutes of the PLANNING AND LAND USE COMMITTEE MEETING

Present at the meeting: Eric Mansker – Chair
Jerry Askew
Bob Stevens
Maria Fisk – Stakeholder

We discussed the new location of the PLUC meetings which will be held at the Coldwell Banker conference room @10324 Balboa Blvd., Granada Hills CA 91344 the time and dates of the meeting will remain the same until further notice.

Several Motions were proposed however, due to lack of wording and other pertinent information need to present the motion at this time as well as posting of the meeting notices(which took place Monday morning therefore lacked the 72 hr time frame we felt it best to present these motions at the next general meeting).

- The first motion dealt with the Granada Hills/Knollwood Specific Plan amendments stating that the GHSNC file a Community Impact Statement imploring Councilmen Greg Smith not to change the amendments in the community plan he had previously promised.
- The second motion asks the board to file a community impact statement pertaining to Medical Marijuana establishments asking the city council to band MMD's in the city.

As a stop gap measure we also discussed the possibility of adding a measure to the Specific Plan limiting the distance that a Medical Marijuana establishment could be from a school, religious establishment, park or another such establishment within the boundary of the Granada Hills/Knollwood Specific Plan area.

And finally the Mayor's Sidewalk proposal:

MOTION: That the GHSNC opposes the mayor's recommendation in his 2009-2010 budget that damaged sidewalks around their properties be repaired at owner's expense as a condition of selling their properties.

The meeting was adjourned at 9:14 pm

Eric Mansker
PLUC – Chair
